

Proyecto Zoológico

In this project, you are going to create your own zoo. There will be two things you will create:

Zoo Map

You will create a map in the medium of your choice (by hand, Piktochart, Photoshop, etc). The map must include the following. These items should be labeled on the map:

- At least 20 animals
- At least 5 streets/paths (calle/sendero)
 - Ex: Calle Europa / Sendero Mamíferos
- At least 3 places to eat (restaurante/el café)
 - Ex: Restaurante La Luna
- At least 3 places to shop (tienda)
 - Ex: Tienda El Mono

Write-Up

You will do a write up that will list 3 things for each of the 20 animals: location in zoo (estar), where from (ser), and an adjective describing them (ser and noun-adjective agreement).

Ex: Los leones están al lado de los elefantes. Los leones son de África. Los leones son fuertes (strong).

Due: Thursday, April 20th
